

Welcome to Album-Designs.com

**We are here to offer our design services to
Professional Photographers.**

No templates are used in the design process.

**Our album design services are one of a kind and there
are several service options to choose from.**

OPTION # 1

Send us your high res JPEG files on disc or you may ftp the high res jpegs to our website. Detailed ftp instructions will be provided.

Either the entire event for us to choose images from, or you choose the images you like, as well as some for background images.

Send them color corrected and cropped as you want them.

Our creative staff will design your album and post it to our site under your company so that your customer can go on and view a beautiful slideshow of their album.

**Pricing starts at \$125 for 1 - 25 sides in
10x10 or 10x15 format.**

**Additional charges apply for larger albums.
Please ask for details.**

Also, we will be happy to consult with your bride about any changes at an additional cost 5 changes to the album will be included.

OPTION # 2

Add color correcting to Option #1 \$50.

OPTION # 3

We will order the prints from our lab at no extra charge to you, just set you up on a direct bill from them. We receive the prints, proof them, correct any problems and ship them to you for cost of shipping.

You can provide us with the shipping labels (FED EX, DHL, etc.) All at no extra cost to you.
This is if you choose for us to color correct them.

OPTION # 4

We will forward the finished prints on to the album company of your choice at no extra cost except for the shipping to get it there.

Finished product then comes to you for delivery to your customer.

These prices are for dealing directly with the photographer. Additional costs for consulting directly with your customer on any changes to be made.

Panoramic design or individual side designs available. You must specify if you are using an album company that has a large gutter in the center of the album, so that designs will be made to accommodate that type album

Turnaround time depends on volume in house.

We can give you a time estimate when you call.

Thank you for giving us a chance to lighten your load
and take the stress off of you
in the production process !
